

LOCAL CHILDREN NEED YOUR HELP WITH AN OUTDOOR PROJECT

Pelton Community Primary School are continuing to develop their school grounds following the Outdoor Play and Learning (OPAL) principles.

This project involves the opportunity for the children to play whilst taking risks. The school are planning to use their school grounds with help from their community by creating an allotment on site and creating different fun learning zones: construction area, woodland walks, sand pit, mud pit, mud kitchen to name a few. The school would appreciate the following support in this great programme by donating:

- Small world creatures and toys (e.g. toy figures, animals, dinosaurs, cars, vehicles, insects, McDonald toys etc.)
- Sheets, blankets and cushions
- Dressing up clothes/outfits
- Old cookery things e.g. sieves, colanders, pans, spoons, ladles etc. (for use in the sand pit and mud kitchen)
- Buckets and spades (for playing in the sand pit and digging area)

As well as donations of items, the school would welcome any help from their local community. If you can help or if you know of anyone that may be interested in helping the school with this wonderful project, please contact the school on 0191 3700451 or by email to pelton@durhamlearning.net

Your help is very much appreciated
